Options Bot	<div><div>Index Value</div><div>968.47</div><div>CAGR</div><div>28.54%</div><div>View algo</div><div>Buy</div></div>

The 2nd page will contain product details as shown below. The route for this page will be “/bots-details/:id”

Dashboard	Cart - 2
<div><div>Hot Bot</div><div>Hot bot is based on MarketSmith India's flagship screen of leading growth stocks, 'Growth50'.</div><div>MODERATE RISK</div><div>Buy</div></div>	<div><div>Index Value</div><div>873.12</div><div>CAGR</div><div>42.72%</div></div>

Functionalities Needed:

- First Page- Bots List Page. You have to list and show all the bots in this page.
Route: `"/bots"`
 1. On this page you have a button for every particular bot- **View Algo**, onClick on it, the route will change to `"/bots/:id"` and show the bots-details page.
 2. You have another button **Buy**, onClick of it, It should increase the item counter in your cart as shown in the header.
- Second Page- Bots details page. You have to show details of a particular bot as shown in the image using `":id"` as a parameter. It should show the details of the bot having that id. Eg: If you click on the view algo button on the first page having id=1, the bots details page should show the details of the bot having id=1.
Route: `"/bots-details/:id"`
 1. You have a button **Buy**, onClick of it, It should increase the item counter in your cart as shown in the header.

Data for your reference:

```
{
  "bots":[
    {
      "id":1,
      "bot":"Hot Bot",
